## Rice Headline News and much more!

Updated on November 29, 2004

Page 5 of 6

### 32. [Rice Headline: Ducking the truth about Europe's GMO policy](#)

The World Bank report debunks this myth and offers empirical evidence of the commission's true motives What is really behind the commission's stringent regulations is European industry's comparative disadvantage in the use of genetically modified, or GM, crop technology Those, too, are rules that walk, quack and swim like protectionist ducks ([Lawrence A. Kogan](#), an international environment and trade attorney, has advised the U S National Foreign Trade Council on trade and environmental issues )
